**Join Us for the Largest
HAZUS Conference Ever!**

Southeastern HAZUS User Group Conference—March 7-11, 2005

Join us for the 3rd Annual Southeastern HAZUS User Group (SEHUG) Conference. We will begin the week with HAZUS-MH training and end with simultaneous conference tracks that include HAZUS use during the hurricane season and in emergency operation centers. Attend this conference if you are an emergency manager or business continuity professional who is interested in discovering the benefits of HAZUS-MH and how to successfully use it for planning and response. GIS professionals should attend the conference to learn and/or improve HAZUS-MH skills and discuss technical issues. We will network and enjoy the beautiful city of Charleston!

HIGHLIGHTS

- HAZUS-MH Basic Training
- HAZUS Advanced Flood, Hurricane & Earthquake Training
- Conference Tracks: HAZUS Technical Issues, HAZUS for Response and Mitigation
- HAZUS Use During the Hurricane Season
- Data Sharing and Local Government
- The National Map
- How to Get to Level 2 and 3 Analysis
